THE CENTRAL QUESTION

What if the key to healing is working with energy?

“At the heart of healing is energy. Through the ages, it has been called many names: *prana, chi, libido, orgone energy*. Star Wars simply calls it The Force. I call it **CHARGE**.”

— Anodea Judith, PhD —

UNDERSTANDING CHARGE

The felt experience of your life force

Charge is the energy of aliveness moving through your body, your emotions, your relationships, and your consciousness. You know it when you feel it: the surge of excitement, the trembling of fear, the impulse to cry, the heat of anger, the electricity of attraction, the expansion of joy.

And you know when it gets stuck or imbalanced.

But do you know what to do about it?

“Charge is the bridge between mind and body, psychology and physiology, human experience and spiritual awareness.”

FOR THERAPISTS & HEALERS AND THOSE ON A HEALING JOURNEY

This is not a workshop of hand-waving over the chakras.

It is an opportunity to experience your own life force directly—and to develop the capacity to recognize, regulate, move, and transform charge in yourself and in those you work with.

FIVE TRANSFORMATIVE DAYS

What you will learn

01	How to follow the charge—in yourself and in another.	02	How to generate charge when you need more energy.	03	How to regulate and ground yourself when charge becomes too much.
04	Bioenergetic exercises for charging and discharging at each chakra level.	05	How to expand your comfort zone rather than simply jumping over it.	06	How charge behaves in trauma and PTSD, and how to work with it safely.
07	How charge becomes bound into tissues, defenses, and habitual patterns—and ways to free those blockages.	08	The patterns of held charge and how they relate to the five bioenergetic character structures.	09	Charge and disease: exploring the language of trapped energy behind your symptoms.
10	How charge is the integrator between mind and body.	11	How to harvest your charge for greater aliveness, awareness, and healing.		

THE QUESTIONS WE WILL EXPLORE

How does energy actually move through the body?

How is it shaped by the psyche?

How does trauma alter its flow?

How do the chakras organize charge for operating in the world?

And how can we work with this energy consciously, safely, and skillfully?

This workshop explores those questions not simply through theory, but through direct experience.

THE INTENTION

The goal is not to transcend the body. The goal is to become more fully alive within it.
